Professional Summary

Results-driven Data Analyst with over 4 years of experience delivering business intelligence, healthcare analytics, and executive reporting solutions across the UAE and Saudi Arabia. Experienced in designing enterprise Power BI dashboards, automating reporting processes, integrating data from multiple systems, and transforming complex datasets into strategic business insights. Strong background in Revenue Cycle Management (RCM), operational analytics, pricing strategy, financial reporting, workforce analytics, and KPI performance management. Proven ability to partner with senior leadership and cross-functional stakeholders to improve operational efficiency, enhance data quality, and support data-driven decision-making. Technical expertise includes Power BI, SQL, Python, Excel, DAX, Power Query, data modeling, ETL processes, dashboard automation, and business intelligence solutions.

Core Competencies

- Power BI (Dashboards, DAX, Data Modeling)
- Advanced Excel (Power Query, Pivot Tables, XLOOKUP)
- SQL & Data Extraction
- Data Cleaning, Validation & Integrity
- KPI Reporting & Dashboard Automation
- Workforce & Recruitment Analytics (Pipeline, Trends, Performance Metrics)
- Data Integration (Multiple Systems, Excel, HIS, Databases)
- Stakeholder Reporting & Data Storytelling

Professional Experience

Professional Experience

Data Analyst

King’s College London Hospital | May 2025 – Present | Dubai, UAE

Lead the design and development of enterprise reporting solutions supporting executive leadership across operational, financial, commercial, quality, and HR functions.

Key Responsibilities & Achievements

- Designed and developed enterprise Power BI dashboards that provide real-time visibility into operational and financial KPIs across Revenue Cycle Management (RCM).
- Automated daily, weekly, and monthly reporting processes, reducing manual reporting effort by **30%** while improving reporting accuracy and consistency.
- Built end-to-end operational tracking solutions to monitor patient workflows and identify bottlenecks, improving turnaround times by **15%**.
- Developed executive dashboards covering:
 - Revenue & Financial Performance
 - Operational KPIs
 - Commercial Performance
 - Quality & Safety Indicators
 - Human Resources Metrics
- Performed advanced data analysis to identify operational inefficiencies and recommend process improvements.
- Created performance funnel dashboards to monitor complete business workflows and measure conversion rates across operational stages.
- Integrated data from multiple operational systems while ensuring high standards of data quality, validation, and governance.
- Collaborated with senior stakeholders to translate business requirements into scalable BI solutions supporting strategic decision-making.

Data Analyst

Saudi German Health | Dec 2023 – Apr 2025 | Remote – Saudi Arabia

Delivered healthcare analytics and business intelligence solutions supporting pricing strategy, operational reporting, and executive decision-making across one of the region's largest healthcare providers.

Key Responsibilities & Achievements

- Built analytical models using SQL and Python to evaluate pricing performance and operational trends.
- Automated recurring reports, significantly reducing manual effort while improving reporting reliability.
- Consolidated data from multiple business systems into unified reporting models.
- Produced executive dashboards supporting pricing strategy, operational performance, and business planning.
- Conducted large-scale data validation and quality assurance to improve reporting accuracy.
- Generated actionable insights that supported strategic business initiatives and operational improvements.

Pricing Analyst

Andalusia Group for Medical Services | Dec 2021 – Nov 2023 | Remote – Saudi Arabia

Managed pricing analysis, contract negotiations, and market intelligence to optimize profitability across healthcare services.

Key Responsibilities & Achievements

- Conducted pricing variance analysis using Power BI and Excel, contributing to a **7% increase in revenue**.
- Performed market research and competitive benchmarking to support pricing strategies.
- Led pricing negotiations with insurance providers, achieving approximately **10% cost savings** while maintaining service quality.
- Improved pricing accuracy by identifying inconsistencies across multiple branches.
- Supported HIS system integration through pricing validation and data reconciliation.
- Worked closely with commercial, finance, and operational teams to optimize pricing structures and contract renewals.

Education

Bachelor’s Degree

German University in Cairo | Jul 2021

GPA: 1.9/4.0 (87% - Very Good)

Certifications

- Google Data Analytics Professional Certificate (8-course completion)
- Udacity Data Analysis Professional Nanodegree
- Udacity Data Analysis Challenger Nanodegree
- DataCamp SQL Data Analyst Certification

Key Projects

Healthcare Performance Dashboard (Power BI)

- Developed dashboards tracking KPIs, operational performance, and trends
- Improved visibility for stakeholders and supported data-driven decisions

E-Commerce Data Analysis (Python & Power BI)

- Analyzed customer behavior and sales trends, providing actionable business insights

Electric Vehicle Market Analysis

- Conducted trend and segmentation analysis using Power BI

Technical Skills

- Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL
- Data Visualization: Power BI, Tableau, Matplotlib, Seaborn
- Tools & Platforms: Microsoft Excel (Advanced), Google Sheets
- Analytics Techniques: Predictive Modeling, Statistical Analysis, Hypothesis Testing
- Soft Skills: Problem-Solving, Attention to Detail, Communication, Teamwork

Achievements

- Increased **operational efficiency** by **30%** through **automated reporting solutions**.
- Improved **profit margins** by **4%** via **strategic pricing recommendations**.
- Delivered **actionable insights** that reduced **overstock losses** by **7%** in **inventory management**.
